. 20 NF seminář Průběžné odborné vzdělávání pracovníků v oblasti prevence kriminality a patologických jevů - „Prevence kriminality na místní úrovni“

9. 6. 2021

I přes nepříznivou epidemiologickou situaci, která stále nepřeje vzdělávacím procesům, proběhla dne **9. června 2021** v rámci projektu PDP1 „Zvýšení policejní kompetence v prevenci a boji proti kriminalitě, posílení komunikačních dovedností s veřejností a povědomí o lidských právech,, plánovaná aktivita - seminář „***Průběžné odborné vzdělávání pracovníků v oblasti prevence kriminality a patologických jevů Prevence kriminality na místní úrovni***, který byl z důvodu pandemie koronaviru realizován online.

Již otec kriminologie [Cesara Beccaria](#) prosazoval „Je lépe zločinu předcházet, než ho trestat“. Prevence kriminality je vedle represe nedílnou součástí [trestní politiky](#). Neměla by však být chápána pouze jako činnosti náležící [policii](#). V současné době by se mělo spíše jednat o souhrn aktivit, vyvíjených státními, veřejnoprávními i soukromoprávními subjekty, směřujícími ke kontrole kriminality a snížení strachu z ní. Prevence je zaměřena jednak na osobu potenciálního pachatele kriminality, tak i na potenciální oběti kriminality.

Semináře „Prevence kriminality na místní úrovni“ se zúčastnilo více jak 150 posluchačů, především z řad krajských a městských úřadů, Policie ČR. Účastníci byli seznámeni s tématy vývoje kriminality v ČR, metodikou identifikace a hodnocení bezpečnostně rizikových lokalit ve městě, s mapami budoucnosti, s otázkou fake news a šíření poplašných zpráv a dalšími tématy týkajícími se prevence kriminality.

Tyto semináře budou i nadále pokračovat.

No. 20 NG seminar Continuous professional education of staff in the field of crime prevention and pathological phenomena - "Crime prevention at the local level"

9. 6. 2021

Although the current epidemiological situation is still unfavorable for educational processes, the planned activity – seminar **Continuous professional education of staff in the field of crime prevention and pathological phenomena "Crime prevention at the local level"**, which was organized within the project PDP1 - "Increasing police competence in preventing and combating crime, strengthening communication skills with the public and awareness of human rights", took place on 9 June 2021. The seminar was carried out online due to the Covid-19 pandemic.

The father of criminology, Cesare Beccaria, has advocated, "It is better to prevent crime than to punish it." In addition to repression, crime prevention is an integral part of criminal policy. However, it should not be seen only as a police activity. At present, it should rather be a set of activities developed by state, public and private entities, aimed at controlling crime and reducing fear of it. Prevention is focused on both potential perpetrators and potential victims of crime.

The seminar "Crime prevention at the local level" was attended by more than 150 listeners, mainly from regional and municipal authorities and the Police of the Czech Republic. The participants were acquainted with the topics of crime development in the Czech Republic, the methodology of identification and assessment of urban areas with security risk, maps of the future, the issue of fake news and scaremongering and other topics concerning crime prevention.

These seminars will continue.
